

# Irma Marsh Middle School

## Construction Update

February 2020, Vol. 10

The front addition to Irma Marsh Middle School is complete! It looks amazing and has transformed the overall look of the school into a beautiful, modern campus.

Inside the front addition, the new library is open for business and the office staff has moved into their new space.

Renovation is now underway in the hallway where the old offices were located. The demolition of the previous school entrance and administration office space is complete and new classrooms are taking shape. Renovations are also underway in the 2nd floor classrooms in that section of the building.

Around back, the new STEM (Science, Technology, Engineering, & Math) wing has been completed and the classrooms are filled with students in 6th, 7th and 8th grades. Work continues on the new Fine Arts wing and the exterior courtyard that connects the two new spaces. The brick exterior is nearing completion and the interior rooms are taking shape with the installation of sheet rock on the walls and ceiling.
