

# Irma Marsh Middle School

## Construction Update

April 2020, Vol. 12

New Art Room

Life Skills Restroom

Even though students shifted to Remote Learning after Spring Break, construction was designated essential work by our government, so progress has continued on the projects at Irma Marsh Middle School.

The new Band Hall is now complete and work continues in several other parts of the building. In the areas of the building that once housed the IMMS main offices, progress continues on the repurposing of these spaces. New classrooms and restrooms are taking shape as the installation of the mechanical, electrical, plumbing, and flooring at that end of the building is nearing completion.

Regardless of the circumstances, Castleberry ISD will continue to work to support the students, staff, and families of CISD, and we will continue to keep our community updated as information becomes available.
