

# TUESDAY, FEBRUARY 6 @ 12:00PM TARRANT COUNTY HAZARD MITIGATION ACTION PLAN UPDATE

## Public Meeting

Tarrant County and its participating jurisdictions are updating the current Hazard Mitigation Action Plan (HazMAP) in order to create a more resilient and safer community for its residents, businesses, and visitors. As natural hazards are becoming more frequent and damages more costly, mitigation actions are key keeping the community safe. We are requesting citizen participation and input in the update of the Tarrant County HazMAP.
